

Term Project Proposal

Due date & time: October 25, 2024, 10:00AM

In a short essay, concisely and precisely write down your term project proposal including at least the following elements:

- Title of your term project;
- Team members (**1 to 4** persons; **the first person** is the team leader) of your term project:
 1. Student ID;
 2. Chinese name (for matching the school record);
 3. Email address;
- Type of your term project, for example, theory verification, algorithm design improvement, evolutionary computation applications, etc.;
- Objectives you would like to achieve in the project;
- How you will achieve your goal in this project, for example, the method you would like to use, the parameters you want to employ or examine, the steps you are going to take, etc.;
- Contributions of this project if successful.

Notes:

- Describe your term project in detail as much as possible but keep it simple, accurate, and succinct.
- Submit your term project proposal as a PDF file via the online submission system by the deadline.
- The team leader submits the proposal for the whole team. Team members do not need to submit anything.
- Online submission only. No hard copy will be accepted. Submit the proposal on the NYCU E3 platform.
